

# Self Destruction

Standing outside – looking in  
I touched the ground – my head exploded  
Standing outside – looking in  
I feel empty – and overloaded  
Have I ever seen my life  
All so clear – without fear  
Standing inside – watch myself  
Watch myself – where I'm goin'...

So keep your eyes deeper to the ground

**You-u-u-u – you let me bleed  
You-u-u-u – take what you need**

Standing outside – looking in  
I drank myself dry – for a while  
Standing outside – looking in  
I bled out – until you smiled  
I'll try that I'll never loose  
The control – the control  
So I stopped self destruction  
I don't wanna fall

So keep your mind deeper to the ground

**You-u-u-u – you let me bleed  
You-u-u-u – take what you need**

Take what you need

**You-u-u-u – you let me bleed  
You-u-u-u – take what you need**
